

**Table 17. Vaginal and anal intercourse during the past 12 months,<sup>a</sup> among 223 women and 282 men recruited in STD clinics, HIV Testing Survey, 2001**

Vaginal intercourse										Anal intercourse									
Primary partner <sup>b</sup>										Non-primary partner <sup>c</sup>									
Vaginal intercourse		Condom use with primary partner								Vaginal intercourse		Condom use with non-primary partner							
Vaginal intercourse		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never
Total	No. (%)	No. (%)	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)
Men <sup>d</sup>	214	210 (98)	17 (8)	109 (52)	83 (40)		198	193 (97)	57 (30)	104 (54)	31 (16)								
Women <sup>e</sup>	206	204 (99)	23 (11)	107 (52)	71 (35)		93	91 (98)	37 (41)	42 (46)	12 (13)								
<b>Vaginal intercourse</b>																			
Primary partner <sup>b</sup>										Non-primary partner <sup>c</sup>									
Anal intercourse		Condom use with primary partner								Anal intercourse		Condom use with non-primary partner							
Anal intercourse		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never	No. (%)		Always	Sometimes	Never
Total	No. (%)	No. (%)	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)	Total	No. (%)	Total	No. (%)	No. (%)
Men <sup>d</sup>	214	48 (22)	3 (6)	14 (29)	31 (65)		198	51 (26)	14 (27)	8 (16)	29 (57)								
Women <sup>e</sup>	206	30 (15)	3 (10)	8 (27)	18 (60)		93	19 (20)	2 (11)	5 (26)	12 (63)								

Note. Numbers may not add to totals due to missing data. Row percentages may not add to 100 due to rounding.

STD, Sexually Transmitted Disease

a Within the 12 months before interview.

b Defined as "a relationship with a (man/woman) where you feel committed to (him/her) above anyone else and where you have had sex together."

c Defined as someone ""who was not a primary partner."

d Data represent sex practices with female partners.

e Data represent sex practices with male partners.
